

Avitech International Corporation COMPANY OVERVIEW

Avitech International Corporation (Avitech Video – www.avitechvideo.com) is a leading designer, developer, and manufacturer of **multi-image display monitoring solutions (Multiviewers)** that address the professional audio & visual (ProAV), security & surveillance, and broadcast, cable & satellite markets. Whether it is a video conferencing application, or a broadcast mission critical control room application, Avitech offers a breadth of visual monitoring solutions to meet the specific needs of the individual customer.

Avitech has become renowned for its focus on innovative, reliable products that deliver cost effective solutions that feature multi-standard functionality, open interoperability, advanced software and user interfaces, and viability for future requirements.
