

January 26, 2004 – Redmond, Washington, USA

Thomas Tang, a seasoned industry veteran with a commanding background that includes engineering, applications, sales and marketing has accepted the challenge to oversee Avitech's worldwide growth strategy.

Thomas' strategy includes expanding the Company's technology partnerships, dealer, system integrator, and distribution networks. In addition he will be responsible for all aspects of promotion and marketing of Avitech's brand, product lines and market segments.

Prior to joining Avitech, Thomas held the position of Director of Market Development for Thomson Grass Valley's (2002-2004) Server and Digital News Production, and (1999-2002) Media Network & Control (Routers and Master Control) business units. During his tenure, Thomas has consistently met and exceeded his revenue challenges; his business units have also achieved significant growth in developing regions such as China, Japan and South Korea. Most notably, the recent installation of the world's largest digital news production system at SBS Korea. Thomson has dominant worldwide market share in both the routers and servers/news areas.

A graduate of University of Utah, Thomas holds master degrees in Physics, Computers Science and received his executive training from Harvard Business School. He joins Avitech as the Vice President of Marketing and Sales.

Thomas can be reached at: 877-420-5909 / thomas.tang@avitechvideo.com
