

FOR IMMEDIATE RELEASE

Rainier 3G to Make Its Debut at IBC 2011

REDMOND, WASHINGTON, August 26, 2011 – Avitech International Corporation will be debuting the Rainier 3G at IBC 2011 in Amsterdam from September 9-13. Avitech is located at Booth #7.K30.

The Rainier 3G, which is projected for release in Q4, will make its debut at IBC 2011. The newest addition to the Rainier family, the 3G allows users to monitor up to eight HD 3G/1.5G/SD-SDI/CVBS sources through a single unit. It features a built-in 8x8 crosspoint switcher to efficiently manage multiple inputs over two outputs, and users can cascade up to 15 modules to monitor up to 120 sources on either one or two screens. A 3G connection provides a full 1080p signal. Exhibiting flawless clarity and dynamic control, the Rainier 3G delivers a new multiviewing experience.
